New Staff Member Jennifer Helgoth

Please join us in welcoming Jennifer Helgoth as the newest member of the ABS team. Jennifer is a Southeast Community College graduate in Auto Collision Repair Technology and will be assisting with deliveries and inside sales.

Commercial
Performance
Coatings

Commercial Performance Coatings are hard-working finishes that can be applied to products or equipment, large and small. They can be used in production runs ranging from mass production to special one-of-a-kind jobs, or for repair and refurbishment projects. Need a custom color? A fast-dry system? Superb durability? Low VOC options? From automotive restoration to agricultural and construction equipment to trailers, and much more, **PPG** offers the proven technology and support to assure the right finish for the application. **PPG Commercial Performance Coatings** are available in a variety of technologies, including alkyds, acrylics, epoxies, urethanes and powder coatings. Best of all, every product in the Commercial Performance Coatings line is backed by **PPG's** legendary support, so you have the expertise of a world leader behind you...every step of the way.

NEW Product in Stock

Urethane Supply Company's Bumper Mate Plastic Repair Workstation is designed to secure plastic bumpers, headlights, fenders, and other plastic parts in nearly any position while you weld the damage. With the Bumper Mate, one person can easily clamp the bumper in any position, do the prep work, and weld it, making repairs in even in the most awkward positions easy! More than anything else, the Bumper Mate is designed to save you time and money by allowing technicians to be more productive repairing plastic.
