

## COLOR ON THE GO

### Stats Reveal Surging Popularity of PPG Web-Based Color Tools

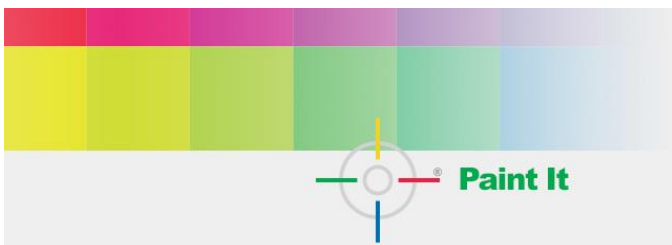

The Internet continues to enhance collision shop and mobile productivity, especially when it comes to color retrieval. Two **PPG** online color tools are prime examples of the growing digital influence. **Colormobile** software and **Paint It** digital color chips. These resources make finding essential color information simple and fast.

#### COLORMOBILE SOFTWARE

The Colormobile software provides comprehensive access to **PPG's** database of prime, variant and field specials 24 hours a day, seven days a week.

#### PAINT IT DIGITAL COLOR CHIPS

Another online color tool from **PPG** on the rise is **Paint It** digital color chips, available from [ppgpaintit.com](http://ppgpaintit.com). In essence, this Web-based tool is a digital version of PPG's annual color information book with many more features. It's especially useful in identifying the color when a vehicle color code is unknown.

#### CHANGING WITH THE TIMES

Another year is almost behind us. Did you make any changes this year? You've heard all the quotes *"If you are doing business the way your father or grandfather did you are headed for trouble"* or *"As soon as you sense change you need to be doing something about it."* The focus is always on doing things faster, better and more cost effective. The competition isn't going to slow down, so changes to improve processes, obtain new equipment and training updates will keep you ahead of your competitors.

Now that we get a fresh start with a new year take advantage of your partners from **Auto Body Supply** and **PPG** to help you make the changes you need in 2016.

We will be closed  
December 24<sup>th</sup> @ noon  
& December 25<sup>th</sup> All Day

*Merry Christmas*
