

Auto Body Supply, Inc.

Southeast Community College's **75th Anniversary Open House** was a huge success. Held May 6th & 7th at the Milford Campus, there was plenty to see and do. From school tours to a car and tractor show, to a Blackhawk helicopter on display and much more. Thank you to everyone who attended!

NEW PRODUCT

3M™ Cavity Wax Plus
Non-hardening corrosion protection for internal cavities in a convenient aerosol can.

- Self-healing, corrosion protection for inner body panels, frame rails and structural enclosures.
- When used according to directions **3M™ Cavity Wax Plus** delivers the right amount of flow and wicking, providing consistent and uniform protection for your repair.
- Eliminates the need for using antiquated and messy bulk spray technology to apply corrosion protection to a vehicle.
- Provides access to inner body structures with tight tolerances

Use with 08851 Applicator wand kit.

Parts Management Class

August 2nd 2016

Marriott Cornhusker Hotel - Lincoln

THE BUSINESS OF MANAGING PARTS FOR COLLISION REPAIR

Collision parts sales represent 40% or more of a typical collision center's sales volume and are critical to achieving delivery and cycle time goals. Given this contribution to the repair process and profitability, parts must be managed with structure, organization, and critical timing included in solid business processes. This seminar will focus on the key processes of ordering, receiving, storage, delivery, and returns for collision center parts. Additionally, this course identifies the key business management practices as well as lean principles for value stream management, work standardization, and ongoing improvement. 5S Workplace Organization for collision parts will be covered to introduce best practices and improvement techniques to ensure good handling of parts inventory.

TOPICS COVERED

- Participants will gain an understanding of the financial impact as well as the key measures & metrics for measuring parts management.
- Participants will understand the parts impact on the overall value stream and the time effect of failure loops
- Participants will review the parts relationship in Repair Planning
- Participants will learn the parts vendor selection processes, evaluation tools, and negotiation
- Participants will be introduced to critical parts ordering, receiving, storage and returns processes
