NEW PRODUCT

Professional
Heavy Duty
Rubbing Compound

Mothers Professional Heavy Duty Rubbing Compound quickly removes 1,200 grade and finer sand scratches from all types of refinish and factory applied automotive paints. May also be used to remove heavy oxidation, car wash scratches and other defects from paints that do not require sanding.

BOOTH & AIR LINE FILTERS

When was the last time you inspected or replaced the filters for your paint booth or air lines? This is one item that gets put on the back burner until "next week". Be proactive and have a replacement schedule posted as a reminder. Don't wait until there is a problem. See your ABS Rep to help you with this.

Coming Soon!
SATAjet X 5500
Spray Gun

When a system is on the verge of reaching its tipping point, it is considered a "revolution". Something which radically challenges proven solutions already existing for decades, thus introducing a new Status Quo literally overnight, is called a "Game Changer". Because current solutions are not automatically the best solutions. Our aim is, however, to offer the most innovative spray guns available to the market. For any type of painter. For all types of painters. The new SATAjet X 5500 with the revolutionary SATA X-nozzle system will dramatically change the landscape of our industry. Revolutionary because: SATA is the first spray gun manufacturer to offer a nozzle system based on two distinct spray fan shapes for each nozzle size. Parallel and oval-shaped. Across the entire nozzle spectrum. Providing an incredible wealth of perfect solutions. For all kinds of painters. For all kinds of paint systems and climatic conditions. For all kinds of objects to be painted. Using only one spray gun. The SATAjet X 5500: Perfectly in sync with you. The first spray gun which is in complete harmony with you and your individual requirements.

See your ABS Rep for more information.
