NEW 3M PRODUCTS

3M Precision Masking Tape

3M Precision Masking Tape is a mint green paper masking tape made with a strong yet ultra-thin, ultra-smooth paper backing producing sharp paint lines with both solvent and waterborne paint systems. Removes easily without tearing or adhesive transfer. Available in ¼, ¾, 1 ½, and 2 inch rolls.

3M Trizact Hookit Foam Disc 5000 grit

- Trizact 5000 discs remove P3000 fine grade scratches
- They can reduce or eliminate the need for compounding in specific situations
- These discs also can eliminate the need for using wool compounding pads in automotive paint refinishing
- Available in 3 inch, 5 inch and 6 inch.

IT'S ANOTHER "THANK YOU" CARD FROM THE AUTO BODY REPAIR SHOP

On the Waterfront from PPG

It's been a whirlwind five years since the European collision repair industry made the crossover to waterborne basecoat, and Canada and California collision centers followed close behind. Over this time period, some 28,000 collision center owners worldwide have made the switch from solvent and chose **PPG** as their waterborne system of choice. It's a pretty amazing feat when you think about it.

What's quite revealing are the more than 3900 shop owners in the U.S. (outside of California) who have made the switch to PPG waterborne without any government regulations to do so. There are almost as many shops outside of the regulated areas using our waterborne platform as those that are required to comply with VOC regulations.

*Did you know **PPG** has more water shops in the U.S. and Canada than all of the other paint companies combined?*

These facts validate that the market understands the benefits of **PPG's** waterborne system because nearly 50% of **PPG's** customers are using waterborne even though they are not required to do so. These early adopters represent some of the best-run businesses in the industry. While still operating under the National Rule, they did the research, benchmarked the competition, and are firmly convinced that **PPG** waterborne is the best there is, bar none.
