## NEW YEAR MEANS NEW TRAINING OPPORTUNITIES

To stay ahead of your competitors you need to be more knowledgeable than they are. **PPG** offers many **MVP** management classes to help you stay ahead. You say you are too busy to go to class? You cannot afford not to go, with the changing industry you will not be able to do business the same as you did twenty years or even ten years ago and keep up. **PPG** can help you with product selection, estimating, administration, marketing, production and many more business areas. Do not forget about your technicians, the insurance companies are requiring more certifications for the techs to repair vehicles for them. **PPG** also offers I-Car certified classes. So start 2014 off right by asking one of the **Auto Body Supply** staff for a training schedule and sign up for a class. Or go online at [www.ppgrefinish.com](http://www.ppgrefinish.com)

## New Staff Member Taylor Neth

Taylor is our newest staff member. Taylor's duties include providing administrative office support, project assignments, assisting with deliveries and inventory. We welcome him to our staff!

ALL NEW

## SATA Mini Jet 4400B

The **NEW SATA Mini Jet 4400B** is the perfect compact spray gun if you are looking for superb finishes on areas of difficult access. The special SR nozzles are perfectly suitable for spot repairs on vehicles. It goes without saying that this spray gun allows the application of all modern paint systems -including waterborne paints.

### Enhanced durability

The spray gun body is equipped with a corrosion-resistant chrome surface. The sturdy air cap is made of chrome-plated brass; paint needle and fluid tip are made of tempered stainless steel. The trigger protects the paint needle from overspray during painting, thus prolonging the lifetime of the paint needle sealing. The air piston rod has been especially reinforced. All these features result in an extended spray gun lifetime.

### Large QCC cup connection

**The SATA Mini Jet 4400B allows the use of all three RPS cup sizes with no adapter necessary.** The large connection makes the cleaning of the material passages extremely safe and easy.

## FORD TO BUILD ALL ALUMINUM F-150 IN 2015

The 2015 Ford F-150 will have high strength aluminum alloy body panels. Specific repair equipment will be required. So watch for future **PPG** and I-CAR training availability.
