SATA X5500 Special Edition BIONIC

SATA spray guns do not only inspire with their stunning aesthetics, they deliver with their cutting-edge engineering.

The inner workings of a SATA spray gun is something that many wish to see – and now you can! The SATAjet X 5500 Bionic reveals the unseen technology that makes your SATA spray gun so special.

The special edition spray gun SATAjet X 5500 Bionic is fully functional and suitable for the daily use in the spray booth. Talk to your ABS rep for more information.

COOLER Temperatures Are Here

Fall weather arriving means you need to be aware of the temperature effect on the paint process. Metal and air temperature has a big effect on dry and cure times. So use the correct temp reducer and check paint viscosity. A cold mix room will have a huge effect on the paint mixing process. Check sheet metal temps before spraying if it has been setting outside in the cold.

Willy's Garage has been delivering the highest quality products to clean and protect your vehicle for 20 years. Their line is compact, because they don't believe in making multiple products that do the same thing. You

will use less of their products and save money with optimal results. From their signature Willy's Wax to award winning Quick Detailer, they have you covered. Willy's is proudly made in the U.S.A.
